## Grandmasters Curlers

Many more of us are continuing to enjoy the game of curling while using the stick to deliver a curling stone. We are happy to provide the Ontario Grandmasters Curling Championship for all men and women of grandmasters age.

But the “high hard one” executed by stick curlers is a problem. The heavy weight take-out shot is a particular problem for Grandmasters curlers because:

1. We are not as agile as we used to be and someone may get injured
2. Dividers between sheets are rare in Ontario and errant rocks can create havoc on adjacent sheets
3. Safety is important

We ask all stick curlers at the Ontario Grandmasters Curling Championship to use a more conventional take-out weight for all concerned.

Thank you

Ontario Grandmasters Curling Association Executive
